

## **New GigaPan EPIC Pro Firmware Features Translated Language Menu Options**

**PORTLAND, Ore. – September 18, 2012** – Today [GigaPan](#) introduces a new version of firmware for the [GigaPan EPIC Pro robotic camera mount](#), including multiple language menu options and new capabilities for quickly and easily shooting high-resolution panoramic images. The new firmware includes translated menu options available in French, German and Spanish. In addition, new versions of the [EPIC Pro user manual on GigaPan.com](#) are translated to correspond with the new language menu options.

GigaPan EPIC robotic mounts empower cameras to take hundreds, even thousands of photos, which are combined to create one highly detailed image with amazing depth and clarity. The EPIC Pro is designed to work with DSLR cameras and larger lenses, features advanced technology, and delivers stunning performance and precision. Strong enough to hold a camera and lens combination of up to 10 pounds, the EPIC Pro enables users to capture enormous panoramas with crisp, vivid detail.

The GigaPan EPIC Pro with new firmware, version 171-8, is available now for \$895 and includes a rechargeable battery pack and link to download GigaPan Stitch™ software for free. For more information and to purchase any of the three models in the EPIC series, visit [www.GigaPan.com](http://www.GigaPan.com)

Current EPIC Pro users can download the new firmware to replace the previous version, at no additional charge. The new firmware download is available on [GigaPan.com Downloads](#).

### **About GigaPan**

Founded in 2008, [GigaPan Systems](#) offers a complete innovative technology system, spanning hardware, software and cloud based solutions, to allow photographers, digital content designers and promoters the opportunity to expand the limits of traditional photography. These interactive panoramas bring zoomable, multi-dimensional stories to life through a system of dynamic tools, which drive exploration and engagement for brands, events, research and education.
